

## CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

July 9, 2002

### **H.R. 3815** **Presidential Historic Site Study Act**

*As ordered reported by the House Committee on Resources on  
June 26, 2002*

H.R. 3815 would direct the Secretary of the Interior to conduct a study to determine the suitability and feasibility of designating the William Jefferson Clinton birthplace home in Hope, Arkansas, as a national historic site. The bill would require the Secretary to report findings and recommendations within two years of receiving funding for the study.

Assuming appropriation of the necessary amount, CBO estimates that implementing H.R. 3815 would cost the federal government \$150,000 over the next two years to complete the required study and report. The bill would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply.

H.R. 3815 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. The estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
